## WHAT WE DO:

At Playmaker Pathways, we unlock the college soccer recruiting process by connecting talented players with the schools of their dreams.

Our expansive network and deep understanding of the college soccer landscape allows us to put players in touch with coaches that are the right fit.

We are dedicated to making the recruiting process easy and finding our players a variety of offers that fit their preferences and budget.

Our job doesn't stop after connecting players to coaches. We're there every step of the way, advocating for our players to secure offers and negotiate as much athletic scholarship as possible.

If you (or your child) wants to play soccer in college, you've found the right spot.

# WHY PLAYMAKER PATHWAYS?

College soccer is increasingly competitive every year, especially with the rise of the transfer portal and recent roster limits.

Recruiting to play at your favorite schools alone is not impossible, but very challenging.

Coaches' emails are flooded daily and they rarely respond, only to invite players to expensive ID-clinics where they're overlooked. In many cases, players' highlight videos are never even watched.

At Playmaker Pathways, we cut through the noise.

We know what different coaches are looking for and present our players in the best possible light, leveraging our direct relationships—including phone access—to ensure each player's talents are seen.

We're not just here to find you options, but also guide you through the decision-making process and find a long-term fit within your budget.
